

# Shubhangi Gupta, Ph.D.

User Experience Researcher

 [gupta-shubhangi.github.io](mailto:gupta-shubhangi.github.io)

 [shubhangikgupta@gmail.com](mailto:shubhangikgupta@gmail.com)

 +1 (530) 407-6154

## Experience

### Exploratorium

*Human-AI Interaction Researcher, Science and Technology Museum*

**Apr'25 – Present**

*San Francisco, CA*

- Conducting two Interaction Analysis studies on think-aloud sessions (n=35) and naturalistic audio conversations (n= 52) to identify the role of AI in learning; delivering results to design leadership to inform long-term design strategy.
- Leading a study (n=120) evaluating users' learning outcomes using observations and post-visit surveys in response to AI-enabled UX; informed development of this UX using rapid prototyping and fieldwork.
- Mentoring junior researchers in data collection, coding, and analysis across concurrent Human-Centered AI projects.

### Georgia Institute of Technology

*Project Lead Researcher, Local Data Design Lab*

**Aug 2020 – Aug 2024**

*Atlanta, GA*

- Led multi-phase participatory and qualitative research to uncover user explainability needs for civic AI systems by conducting 25+ expert interviews and 8+ workshops with 60+ participants.
- Partnered with cross-disciplinary stakeholders (data scientists, policy experts, community leaders) to translate insights into actionable design frameworks for human-centered AI development.
- Published and presented findings at CHI, DIS, CSCW, and ICTD conferences.

### IBM

*Graduate Research Intern, Responsible and Inclusive Tech*

**May'22 – Aug'22**

*Yorktown Heights, NY*

- Spearheaded generative research to identify user safety needs and inform design decisions along AI development lifecycles of ongoing IBM projects; conducted contextual inquiry, survey analyses, and literature reviews.
- Translated research findings into an AI risk assessment framework for adoption across IBM at scale, guiding product and design direction for safe, user-centered AI development.

### Google

*User Experience (UX) Research Intern, Ads Privacy and Safety*

**Aug'21 – Nov'21**

*Remote*

- Identified users' data transparency and control needs to inform the design of the Google Ad Center.
- Led and executed 2 end-to-end interview studies (30+ users in 3 countries) and 1 survey-based diary study (5 days, 25+ users, 350+ survey responses).
- Successfully got leadership buy-in to design and lead a foundational study that investigates users' online privacy.

### Striim Inc.

*User Experience Research and Design Intern*

**May'19 – Jul'19**

*Palo Alto, CA*

- Led UX research to make and evaluate design recommendations for the Striim dashboard and onboarding.
- Identified usability flaws across task flows to help redesign the Striim platform and its visual design system.
- Collaborated with product and engineering stakeholders to define and align on user needs for the Striim platform redesign.

## Education

### Georgia Institute of Technology

*Ph.D. in Digital Media (Human-Centered AI), Minor: Science and Technology Studies*

**2020 – 2024**

*GPA: 4/4*

### Georgia Institute of Technology

*MS in Human-Computer Interaction (HCI), Specialization: Interactive Computing*

**2018 – 2020**

*GPA: 4/4*

### Indian Institute of Technology, Guwahati

*Bachelor of Design (User Experience and Interaction Design)*

**2014 – 2018**

*GPA: 9.1/10*

## *Selected Peer-Reviewed Articles*
